

# Bennett

## MILLING WHEAT *Triticum aestivum*

Seeding Rate	kg/ha
Dryland	N
High Rainfall/Irrigation	N

### Seed Treatment

### Description

Long season awnless white winter wheat suitable for grazing and grain production

### Market Segment/Target

Forage and grain

### Features

Early plant long season option due to winter habit  
Ideal for graze and grain or straight grain production  
Suited to high and medium rainfall zones  
Stable flowering window

### Benefits

Ability to be sown early in the sowing window due to its strong winter habit  
Excellent biomass production for grazing, hay and grain  
Provides alternative herbicide control options compared to oats and other forage crops  
Excellent yield potential under favourable conditions

Range	
Low Bloat™	N
Super N Fixer™	N
XtraLeaf®	N
