

Gibson Grain Sorghum

Sorghum bicolor hybrid

Seeding Rate	kg/ha
Marginal dryland	1.5-2.5
Dryland	2.5-5
High Rainfall/Irrigation	4-6
Soil temp for optimal establishment	16°C ↑

Seed Treatment Enhanced

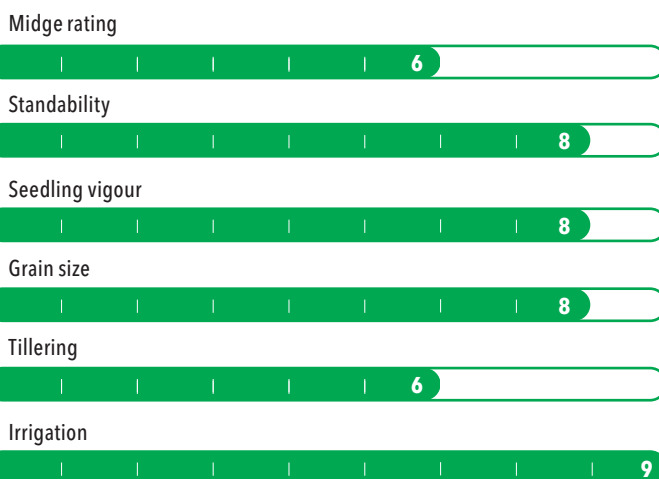

Description
Medium maturity red grain sorghum

Market Segment/Target
Feed grain

- Features**
- Good head exertion
 - Medium maturity
 - Drought tolerant
 - Seed size 28-32,000 seeds/kg

- Benefits**
- Easy harvesting
 - Solid yield potential under most dryland situations
 - Ideal for the main cropping window in all areas
 - Good pollen production makes it also suited for late plant opportunities
 - High midge protection to reduce grain losses and spraying costs

- Gibson is a medium maturity red grain sorghum. With the combination of midge resistance (6), stay-green characteristics and good pollen production
- Gibson tillers moderately allowing it to increase its yield potential if conditions are favourable
- These characteristics combined with good head exertion make it suitable for both dryland and irrigated cropping situations

Rating scale: 1-9
1 - not recommended
9 - excellent
