*Sorghum x Sudan x Sudan*

<b>Seeding Rate</b>	<b>kg/ha</b>
Dryland	6-10
High Rainfall/Irrigation	15-20
Soil temp for optimal establishment	15°C↑

**Seed Treatment** Enhanced or Standard

## Description

Sorghum x Sudan x Sudan  
A widely adapted fine stemmed forage sorghum for high quality hay production and maximum grazing utilisation.

## Market Segment/Target

Suitable for grazing, hay, haylage and greenchop

## Features

- Fines stems, high leaf to stem ration
- Large seed for easier establishment
- Highly palatable

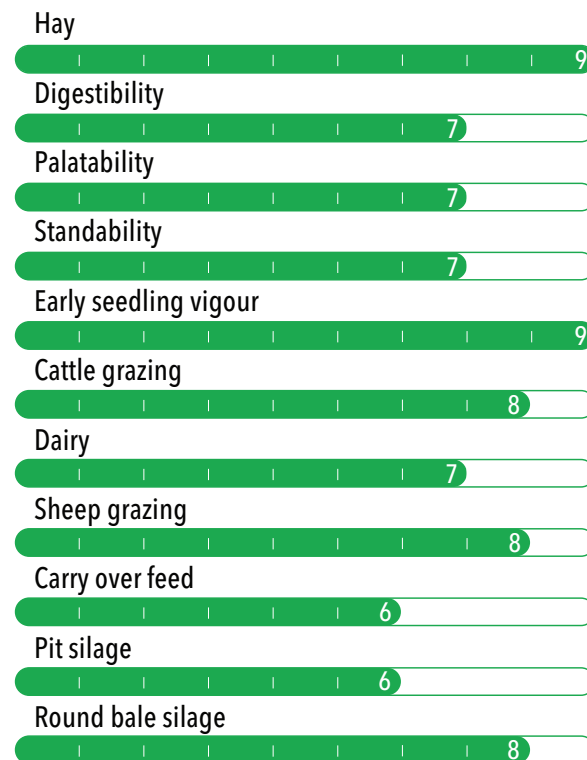

## Benefits

- More leaf, less waste
- Quick regrowth for more cuts or grazings per season
- Fine stems for faster, more even drying when making hay
- Low prussic acid risk

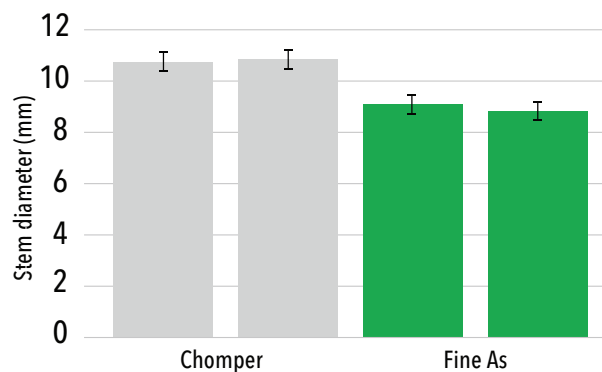

At S&W Seed Company Australia we're so confident about our seed genetics and seed quality, we will replace seed at half the original purchase price if it fails to establish satisfactorily in the first thirty days. Terms and conditions apply.  
swseedco.com.au

Fine As is a forage sorghum selected for its fine tillering characteristics, exceptional regrowth and fine stems. These traits make it a superb choice for hay and grazing and the low prussic acid risk, means you can graze with confidence.

Rating scale 1-9  
1 - not recommended  
9 - excellent

## Fine As Forage Sorghum Stem Thickness

Average stem thickness of Fine As, compared with Chomper, for two cuts at two sites.
